2.3.1 - Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences

All the courses predominantly follow the lecture method. ICT facilities are used for enhancing effectiveness. Besides lectures, other learner-centric methods are also employed to ensure the active involvement of students in the teaching-learning process. These include:

Experiential Learning:

Experiential Learning from extra-curricular activities by giving students opportunity to work in committees like cultural, sports, etc. by which students learn and hone the skills of planning, organizing, team building, inter personal skills, time management, logistics, decision making, etc. Students are encouraged to prepare models, charts, collages which are displayed on the notice board or kept for the view of other students at a noticeable spot in the campus.

Participative Learning:

The students are encouraged to ask questions, clear their doubts, share their views, make Powerpoint presentation. Attend seminars, workshops, guest lectures, home assignments, field visit, report writing, industrial visit, academic competitions, study tours, assignments, project work, practical sessions, group discussions, documentary film shows, team work activities under NSS.

Problem Solving Methodologies:

The students are given case studies and problem solving topics to encourage them to think out of the box.

Certificate Courses are given as extra subjects to the students who are ready to empower themselves for employment
